OUR COMMITMENT TO THE ENVIRONMENT

At **National Plastics Color, Inc**. we are committed to protecting the environment of the communities in which we operate. To meet this objective, our Environmental Management System includes the following requirements, which we consider essential as we create quality products to serve our customers' needs.

PROTECT

- Partner with contractors, suppliers, and vendors who share our commitment to protect the environment.
- Provide our employees, customers, and other parties with the necessary information to understand the environmental aspects of our operations and products for the sustainable future of our products.
- Source chemicals and materials that are safe and environmentally responsible.

COMPLY

- Conduct business ethically and in accordance with all applicable laws, regulations, and other compliance obligations.
- Ensure all products and intermediates are properly registered, meet applicable compliance obligations, and can be used safely for their intended purposes.

IMPROVE

- Improve the overall performance and safety of our processes, seek energy efficient options, and minimize waste generation through pollution prevention and sustainability strategies.
- Design and operate our facilities in a manner that protects employees and human health while minimizing operational impact on the environment and neighboring communities.
- Periodically review our environmental performance actively seek input from employees and interested parties

The implementation of this policy is the responsibility of all our employees and supported by top management.
